Congressional District(s)

IL-17

Status

Initial funding recieved FY15.

Description

The Plum River is eroding its right decending streambank threatening the stability of the adjacent Wacker Drive and Savanna Township Bridge #008-3503. The road is a high traffic county road which includes a school bus route, emergency vehicle access to a local subdivision and would require an extensive detour route if the road was lost due to excessive erosion. There exisits an opportunity to stabilize the eroding streambank and provide protection to this critical public infrastructure.
